

Paraclipse® is proud to offer "Green Products" using NO insecticides or pesticides!

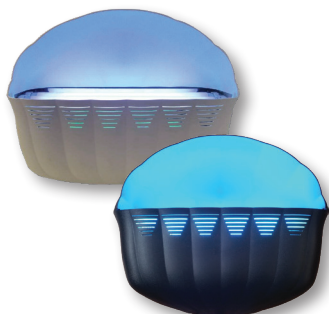

All units are USDA and FDA Approved.

Paraclipse®

INSECT INN ULTRA II™

The Insect Inn Ultra II™ is a patented, long-lasting fly control system utilizing UV light and an exclusive auto-advancing glue cartridge to capture insects permanently. The decorative cover looks like a wall sconce while discreetly keeping flies and other insects out of sight as they accumulate on a pheromone-enhanced adhesive strip that automatically winds within a cartridge for a full 60 days. Unlike inferior glue boards, Paraclipse® offers a no touch solution to remove trapped insects from the unit.

18.5" X 15.25" X 6.75"

Weight5.5 lbs.
 Coverage4,000 sq. ft.
 Cartridge Life..... 60 days
 Cartridge Surface Area.....584 sq. in.
 120 Volt Units: 250602 (White) | 350602 (Black)
 220 Volt Units: 250603 (White) | 350603 (Black)

FRUIT FLY PATROL™

Virtually any damp environment can foster swarms of fruit flies. Add a bit of fermentation, sugars or citrus and the problem worsens. Fruit, produce, wine, liquor, beer & soda, drains, mops, pouring caps in a bar well, even moist towels or linens will invite the pests. The Fruit Fly Patrol™ is a remarkably versatile, decorative fruit fly control system. It is powerful enough for commercial use in areas up to 1,000 square feet. The unique design allows the Fruit Fly Patrol™ unit to be wall mounted or placed on a flat surface. Like all Paraclipse® units, the Fruit Fly Patrol™ uses special UV light, highly effective fruit fly specific attractant, and decoys on the trapping surface to lure and capture fruit flies, drain flies, and gnats. Its small size blends into any décor and features a 30-day auto-advancing cartridge.

12.5" X 12.0" X 6.25"

Weight.....3.5 lbs.
 Coverage.....1,000 sq. ft.
 Cartridge Life..... 30 days
 Cartridge Surface Area.....162 sq. in.
 120 Volt Units: 250708 (White) | 350708 (Black)
 220 Volt Units: 250709 (White) | 350909 (Black)

TERMINATOR™

The Terminator™ is a patented, long lasting, highly effective fly control system that covers approximately 10,000 sq. ft. This unit also utilizes UV light and an exclusive auto-advancing glue cartridge to capture more insects. The Terminator™ is a commercial/industrial unit that is dual-sided and can be mounted in 3 different positions for optimum effectiveness. Available in both painted aluminum and stainless steel, these units are perfect for larger areas including receiving areas, large kitchens, barns, veterinary clinics, supermarkets, warehouses, hospitals, etc. The Terminator's™ high volume, 60-day cartridge system traps 20 times more insects than a standard glue board.

23.0" X 10.0" X 8.50"

Weight9 lbs.
 Coverage.....10,000 sq. ft.
 Cartridge Life..... 60 days
 Cartridge Surface Area.....970 sq. in.
